

PETITION TO PREVENT THE MAYHEW STREET EXPANSION

We, the residents of Mayhew Street & Gillan Street, Renfrew, Ontario, petition Mayor Tom Sidney and the Town of Renfrew to intervene and limit the planned development of nineteen new homes and extension of Mayhew Street to Gillan Road by McGrimmon Developments to three homes on a cul-de-sac.

Many of the residents on Mayhew Street have specifically chosen to purchase their homes here as it is a quiet, dead-end street with no through traffic, providing a safe environment for their children to play and seniors to walk. Our residents like to know that they can take a walk down the street, or that the children can play out in the street, without fear of being run over by someone speeding through.

We feel that the planned extension & development will cause the same problems that we see over in the Foxden/Otteridge subdivision, where there is increased amount of traffic and where traffic speed has become a valid concern of the residents there, not to mention that it would not continue to be the quiet street that it is today.

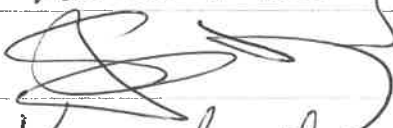

In addition, Mayhew Street is already a narrow street, with insufficient space for additional parking and the added development will only add to the congestion already present. *High water table in the area, it would be worse with more homes.*

Please sign below to indicate your desire to keep Mayhew Street the quiet, safe environment that drew us to purchase here in the first place.
